All the News About Wheat Helps the Bulls.

UNFAVORABLE CROP REPORTS.

Corn Rules Lower Under Unexpected Receipts-Onts Somewhat Firmer -Greater Activity in Provisions -Cattle in Light Supply.

The Crop Outlook. DE CINCINNATI, O., June 6.-[Special Telegram to THE BEE. |-Concerning the crop situation the Price Current says; The winter wheat crop, while improved in many places, is not in a really better position in the western states compared with previous expectations. The late correspondence from spring wheat districts is favorable. The recent weather is generally propitious. Oats, although somewhat backward, show a good average. The promise of a large acreage of corn is making good progress now, much of the crop being late, with increased complaint of damage from worms.

CHICAGO PRODUCE MARKET.

Chicago, June 6 .- [Special Telegram to THE BEE.]-All the news was bull news for the wheat traders this morning. The most important was from Missouri to the effect that the state board of agriculture would report the condition of winter wheat at .64 as against .77 in the last reports. This, with a decline of 3 points in the Michigan board's report, and presumably reliable reports from Ohio that the condition there had declined during the month, and an occasional telegram from Indiana about chinch bugs, was sufficient winter wheat news for one day. Cold and unfavorable weather was also reported from the spring wheat country. Public cables quoted spot wheat firm, and private ones advised of cold and wet weather in the United Kingdom. Moreover the on-passage statement showed a decrease in the amount of wheat and flour on the way to the United Kingdom of 240,000 bushels or 360,000 bushels according as Jones or Beerbohm were taken as authority. Altogether it looked more favorable to holders and there was a steady advance of almost a cent from yesterday's closing figures. Then came some reaction. There was a dispute about the Missouri report above given. Telegrams from St. Louis said it was official, others said not official but on the best of authority, and still others claimed that it was a guess. The importance attached to the news was shown by the fact that the market would vary nearly 14c according as the official nature of the report was affirmed or denied. Operations of the recognized bull party were not noticeable in the general trade. The buying was by everybody, but after the first rush was over it was noticed that Hutchinson was selling on "strong spots." The process of "changing over" from July into August still continues, and it is predicted that the trade in the July delivery will have fallen to a very small proportion in a fortnight's time. July wheat opened at 85c and advanced to 85%c, then very slowly declined to 85% @85%c, then very slowly declined to 85% and closed at 1 o'clock at 85%c. December wheat opened at 86%c, sold up to 87%c and closed at 1 o'clock at 86%c. Corn ruled a little lower to day under the

weight of heavy receipts, 162 cars more than were looked for. Nevertheless, the market were looked for. Nevertheless, the market showed considerable strength at one time and closed only 14@%c under yesterday for July. There has been much talk of the market being held up by a "bull clique," but transactions in the pit to-day did not confirm it. The buying was by local speculators who have not been identified with the bull party. Houses which have been credited with sustaining the market were sellers to-day, but there was no disastrous re sult to prices. The cry of present buyers is that the large receipts these days were intended to fill May contracts, but could not get here in time and now have to be sold because owners were compelled to cover their May sales as best they could. This view of the case contemplates much smaller receipts after a few days. A good shipping demand and a fair outward movement helps to prevent any decline. July corn opened at 541/4c, sold at 541/4c, then up to 55c, down to 541/4c, again up to 54/6c, and closed at 541/4c. September corn opened at 55c, sold at 543/4c and 557/4c, and closed at

The large outward movement of oats served to make the speculative market for that grain a little firmer, but the trading was that grain a little firmer, but the trading was not large and was without special features. June oats sold up from 33½c at the opening to 33½(c)33½c, and closed at 33½c. July oats opened at 33½c, sold up to 33½c, and closed at 33½c. For September oats 27½c was bid at the opening and that was the closing price, the only other price being 27%c.

In provisions the day's range of prices averaged higher than that of yesterday. Initial sales of pork and lard were made at 5c and of short ribs at 736c advance on last night's closing, and for a time the entire market was strong, pork even improving 234c. The high prices prevailing induced how-ever, freer seiling than the demand was able to absorb and a reaction followed. From the

ever, froer selling than the demand was able to absorb and a reaction followed. From the highest figures touched pork fell off 10c, lard 714@10c and short ribs 5@734c. The 1 o'clock closings also stood 234c lower on pork and 234@5c lower on lard than last night's final prices. In short ribs the day's changes showed an actual advance of 234@5c.

AFTERNOON SESSION—Wheat steady and firm; June closed at about 853c; August closed at 853c; September closed at 843c; December closing at 87c. Corn firm; June closing at 543c; July sold at 543c; July at 814.173c; August at 814.273c, and September at \$14.873c. Lard averaged a little firmer, June closed at \$8.65, July at \$8.70, August at \$8.75 and September and October at \$8.75c. July sold at \$8.70c.8.723c. August at \$8.75. July sold at \$8.70@8.72½. August at \$8.75 and September at \$8.75½. Short ribs were steadily bad; closings stood at \$7.67½ for June, \$7.70 for July, \$7.77½ for August and \$7.85 for September, sales moderate.

CHICAGO LIVE STOCK.

CHICAGO, June 6 .- | Special Telegram to THE BRE. |- CATTLE-Out of 11,000 fresh reccipts there were nearly 5,000 Texas cattle and calves, leaving only a moderate supply of natives, and again sifting the natives it was found there was barely a sufficient number of good cattle to go around, hence a lively skirmishing on the part of buyers who had urgent orders, this, in its turn, bringing about another advance on stock that shippers about another advance on stock that shippers and exporters could use. There were a large number of new buyers and some orders from points that heretofore had had all they wanted at home. The fact that cattle are scarce this week, at least there is no denying. Chicago seems to have the bulk of the supply of good and useful cattle, as, for instance, there was a fair run in Kansas City and St. Louis, but about all were Texas—scarcely fifty loads of good natives. Natives, 2 cars fancy, 1500 lbs, \$5.60 (£5.80; 140 cars, 1150 to 1500 lbs, \$5.00(£5.40; inferior to medium, \$4.25@4.90; slop-fed steers, \$4.55@5.20; cows and mixed, \$1.90@ 3.50; stockers and feeders, \$2.25@4.00; Texans, 4.000 and weaker; steers, \$2.60@4.10; cows, \$2.10@2.40.

Hoos—Business continues active with an

Cows, \$2.10@2.40.

Hoos-Business continues active with an upturn of 5c all around, best heavy making \$5.75@5.80; mixed, \$5.60@5.70, and common, \$5.40@5.50. Light sorts made \$5.50@5.60, a few at \$5.05; light light, \$5.30@\$5.50.

FINANCIAL.

NEW YORK, June 6 .- [Special Telegram to THE REE. |- STOCKS-The Reading subscription books that opened yesterday closed unexpectedly to-day, the new 4s being subscribed for four times over. The readiness with which the bonds were taken was regarded as a decidedly favorable feature to

THE SPECULATIVE MARKETS placing of the bonds, however, failed to have the effect on the stock market that the majority of operators expected, as it only rallied %c from the inside figures of the morning. The talk about a new issue of St. Paul preferred continues, but no confirmation of the rumor has been made. St. Paul has issued new bonds so frequently that the street would not be at all surprised to hear of an issue of both common and preferred stock.

A large amount of the latter has come out from insiders, and it was hinted that the parties who are depressing it are anxious to get common down as low as possible to buy it. London bought a little, but the market there was as dull as in Wall street. Prices on the majority of the active list have declined to a point where even the bears have begun to grow cautious. A large short interest exists, and they fear that any decided effort on the part of the leaders to buy will cause a sharp upturn.

GOVERNMENTS-Government bonds were dull but steady to firm.
